UF Chairmen Sav—'Teamwork Did It!'

"Teamwork did it!" Both chairman Joseph Glik and co-chairman John R. Hundley told division and section leaders in the successful "over the top" United Fund campaign that it was a joint effort by the hundreds of volunteers involved that did the trick.

The victory celebration was held Thursday evening in the executive dining room at the Granite City Steel Co. office building.

"It's great to be on a winning team," Glik told the drive leaders; and Hundley added that nothing could deter an undertaking which produced such teamwork and cooperation.

The campaign was the first to top the goal in four years, although each year the fund-raising drive has shown sufficient increases to provide the needed community services.

N. R. Brink, chairman of the UF board, proclaimed Thursday, Nov. 12, to be a "wonderful, wonderful day," and he congratulated the successful undertaking.

He presented them with individual UF plaques—there as those going to division and section leaders—and also had a surprise presentation of UF desk ornaments for the campaign chairmen.

New Total—\$335,805
John Stenberger, executive director, who was given a round of applause for the work of his office in the campaign, reported the amount subscribed was \$335,805, or \$803 over the goal "with more coming in."

Attend Meeting On Economic Proposal

E. G. Schmitt, assistant vice-president of Illinois Power Co. and C. E. Townsend, editor and publisher of the Press-Record, attended a meeting Thursday in Chicago of the Economic Development Committee of the Illinois Chamber of Commerce.

Major discussion centered on a proposal to establish an Illinois Department of Economic Development as a code department of the state. Greater influence and effectiveness would be achieved with a permanent code department than is likely from a loosely-knit, appointive agency such as now is being operated under the name of Board of Economic Development, the C. of C. committee felt.

Recommendations of the committee will be submitted to the full C. of C. board for consideration. If adopted, a final draft of the proposal will be made for presentation to Gov. Otto Kerner and the Illinois legislature.

Gov. Kerner has indicated he favors a similar type of organization. He has referred to it as an Illinois Department of Commerce.

She claims severe and permanent injuries, loss of future income, future medical costs and negligence on the part of the store. A jury trial was demanded.

Campos-Warren Nuptials Held at Hardin Saturday

St. Norbert Roman Catholic Church in Hardin, Ill., was the scene of the wedding Saturday of Miss Carolyn Warren, whose parents are Mr. and Mrs. Lowell E. Warren of Hardin, and Emilio J. Campos, a son of Mrs. Bonifacio Delgado, 3265 Edgewood drive, and the late Eulalia Campos.

The ceremony was performed at 11 a.m. with Msgr. Henry Knoedler officiating. A reception followed in the church social room.

The bride wore a gown of pearl de sole styled with long sleeves and a scalloped neckline created with Swiss motifs and scroll-work embroidery which cascaded down the waist and on to the pleated bell skirt. Pivoting back interest was a butterfly train floating from the shoulders.

A lace and pearl cluster secured the bride's triple tiered hand-held veil of English silk illusion and she carried a cascade of white roses and ivy centered with a white orchid corsage.

The matron of honor, Mrs. William Poore, a sister of the bride, and two bridesmaids, Miss Roberta Miller and Miss Rita Delgado, were dressed alike in royal blue pearl de sole gowns styled with floor-length skirts, round necks, elbow sleeves and bows topping the A-line skirts at their waists. Feather clusters and circular veils were worn in their hair and all three held cascade arrangements of bronze and yellow poinsettias.

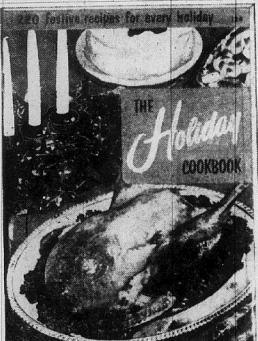

Richard Delgado was best man for his brother and Ronald Rojas, Kenneth Siroff, Robert Boulware and William Poore served as groomsmen and ushers. The bride, a beautician employed in Alton, is a graduate of the Hardin high school. Mr. Campos graduated from the Granite City high school. He is employed by the Granite City Steel Co. They will live at 2230a Cleveland Blvd.

The bride is a daughter of Mr. and Mrs. John Tanase, who reside at 1714 Market street, Madison. The groom is a son of Mr. and Mrs. Francis Earl Pereira, of Sausalito, Calif.

The responses were sung by the church choir, of which the bride is a member. The choir was directed by Mrs. Vladimir Fryntko. The Epistle was read by John Dutko, the bride's uncle.

Mr. Tanase gave his daughter in marriage. She was attired in a gown of white velvet. The bodice was trimmed with re-embroidered Alencon lace and was lavishly embroidered with tiny pearls and iridescents.

The gown was designed by the bride and had an oval neckline and long tapered sleeves. Additional lace was appliqued around the hemline of the slender bell skirt and a detachable full cathedral-length train.

A veil of imported silk illusion was secured to a princess crown of Alencon lace, embroidered with pearls and crystals, and she carried white orchids with pink thistles and lilies of the valley of Mr. and Mrs. Emory Winner, 121 East Main street, Mr. Davis' parents, former residents of the Quad-Cities, reside at 721 O-

The attendants were dressed alike in red velvet. The bodices had scooped necklines and elbow-length sleeves, featuring bell-shaped skirts. They were headpieces of white fur and carried white fur muffs to which were pinned happiness roses.

On Friday another last-seeing 45 was filled to capacity for day's tour of antique houses and sightseeing in Missouri. The group visited "The Pink Plantation" near Troy and the old Bissell house in St. Louis.

A Thanksgiving theme was used in the party appointments and refreshments were served to the prize winners, Mrs. Mary Ann Matz at two guests, Mrs. Karen Gates and Mrs. Mary Rosier.

The remainder of the time was spent at games and prizes were awarded to Mrs. Stella Fedorchak, Mrs. Fairlander Prill, Mrs. Theresa Danco and Mrs. Opal Cain.

A noon dinner was served and the afternoon was devoted to pinocchio games with awards going to Mrs. Charles Spitz, Mrs. Marceline Jung, the hostess, Mrs. Kathryn Smithson and Mrs. C. W. Genard.

Maroons Stop Warriors' Scoring Bids, Win Crucial Game

REACHING FOR PASS from Granite City quarterback Doug Winfield is Belleville linebacker Herschel Johnson (88) but halfback Nick Petrillo (right) raced in to make the catch and gain 15 yards for a third-quarter first down at the Belleville 34. Later in this series, Granite City scored its first TD.

HERE COME THE WARRIORS. Granite City halfback Ricky Turner (right) follows escort of blockers including guard Ernie Kern (61), fullback Tom Craycraft (behind Kern), guard Jerry Lybarger and quarterback Doug Winfield (10). Play started with 1:32 left in the first half.

5100 Watch 20-15 Thriller Here; GCHS Finishes With 7-2 Record

Even in the aftermath of a disheartening defeat, Granite City football coach Jim Morrison is thinking about the 1965 season and plotting how the Fighting Warriors will reverse Friday night's 20-15 loss to the Belleville Maroons.

The 1964 season, the high school's most successful since 1946, ended with the second loss against seven victories before about 5100 fans—believed to be the largest crowd in GCHS history. It ruined the Warriors' hopes for their first Southwestern Conference championship since that long-ago post-war year.

"We're going to win it next year," said the determined Morrison, and clicking off names of several juniors, added, "We'll have the fastest backfield since I've been here. It looks like we'll be lacking good size in the interior but I'll come from somewhere, I'm sure."

Morrison, who directed the Warriors to a surprising 5-3-1 record in his rookie season (1963), makes it clear he won't be satisfied until the name of Granite City portends the same football prestige as East St. Louis and Belleville do now.

This season, the Warriors were able to snap off East St. Louis but stumbled against arch-rival Collinsville (6-0) and then against the mighty Maroons. Winners of 13 consecutive games, the 5100 left Friday night feeling cheated. Several veteran observers said the thriller was the best high school game they had seen in a long time.

Warriors Score First
The Warriors' downfall was inability to make their offense click in the clutch. In the first half, the Belleville defense held the Warriors in a crucial situation—once at the four-yard line, again at the three, and later at the 10.

That first instance, however, resulted in a field goal by Jim Rains and a 3-0 lead with 2:06 remaining in the first quarter. A pass interception by Ricky Turner, had given the Warriors possession at their own 21.

They quickly marched downfield—a 10-yard pass from Doug Winfield to Nick Petrillo, a 13-yard run by Petrillo, a four-yarder by Tom Craycraft, Winfield's bullet strike to Turner setting off 7 yards and Turner's 11-yard end run took the ball to the four.

But on the next play, Petrillo ran back to pass and was tackled for an 11-yard loss. Two more plays yielded only six yards (a fourth down, Rains kicked—about 25 yards from the goal—and the low boot barely cleared the crossbar).

After the kickoff, three long-gangers brought the Maroons to the Granite City 23. Quarterback Ronnie Stoessel passed to Mike Lennon in the end zone but the Maroons were out-of-bounds.

Then fullback Clyde Kuehn (pronounced Keen), the area's leading scorer, slammed through for a gain of four, 11 and eight yards—the last a touchdown.

Rick Sterling's extra-point kick gave the visitors a 7-3 lead with 9:10 remaining in the half, but that score held until intermission.

Reveille Tips Through
Track sprinter Leonard Reveille gave GCHS fans a thrill by returning the ensuing kickoff 50 yards to the Belleville 45. Kuehn the last Maroon defender stopped him. From there the Warriors—paced by Petrillo's seven carries—went down to the three.

On three plays, however, the Belleville goal-line unit yanked the Warriors back a yard and the Maroons took over on downs. A weak kick kick was returned by Reveille to Belleville's 17. Two plays pushed Granite City to the 10 but once again coach Bob Fiala's team held and took possession.

In the first play of the second half, Kuehn broke away on the right side, angled to the left, eluded the secondary defense and completed an 80-yard scoring run. Sterling's kick put the Maroons ahead 14-3.

The Warriors bounced back. They rammed their way from their own 30 to the Belleville 15 the key play an 18-yard pass from Winfield to Turner, who made a sensational catch and after the ball bounced off the hands of would-be interceptor Stoessel, Granite City narrowed the score to 14-9 as Winfield nudged his left, then lofted a high pass across field to Turner who was alone in the right side of the end zone. Later, with 1:32 left in the third period, Stoessel threw a screen pass to Mike

Lenon who ran 38 yards to give Belleville a 20-9 lead.

Another Long Return
Reveille helped set up the Warriors' final score with his second and sensational kickoff return, this one for 39 yards. Winfield, playing his finest game, dashed 12 yards and then completed three straight passes—for six

yards to Gary Johnson, 11 to Petrillo and 25 to Joe Hauptman for a TD.

Hauptman caught the pass at the five, lowered his head and blasted through two Belleville defenders to score. Rains' kick was wide again and with 11:18 left to play, was stalled when Stoessel punched a Winfield pass virtually from the open hands of Hauptman.

Turner had special praise for the individual efforts of Winfield, who completed nine passes for 140 yards; Petrillo, who gained 91 yards in 22 carries; Hauptman, who as defensive end led the team in tackles; Turner, who came up with key plays on both offense and defense, and John Evenden, who played the entire game at center and defensive guard.

It was the swan song for 22 seniors—Winfield, Petrillo, Craycraft, Hauptman, Evenden, Jerry Line, Jerry Lybarger, Ernie Kern, Chuck Mizersky, Mike Monahan, John and Jim Pomeroy, Bill Pates, Phil Minner, Ray Snelson, Dan Messey, John Russell, Harry Briggs, Rick Whitcomb, Craig Gartin, Rich Grizzard and Larry Curry.

Curry was a player in street clothes, a valuable assistant to the coaching staff. The school's outstanding sophomore player two years ago and one of the most promising line prospects in years, he sat out the past two seasons with a back injury but returned as unofficial "student coach."

Jerseyville Downs Madison 20-6 in Finale

Finishing with a 1-7 win-loss record, the Madison Trojans bowed 20-6 Saturday night to the host Jerseyville Panthers. Jerseyville had a 4-6 record.

"There's not much you can say after winning just one game," said coach Glen Pickering. "Actually, there were only two games we were completely out of—Granite City (62-0) and Roxana (48-0). We played a lot of younger kids, so we're looking forward to next year."

"There were just nine seniors on the squad as the season ended, and only six of those could be considered 'regulars.' They were inmen Tom and Jack Miller, Bob Clinton, Steve Purkiple and Ezell Mallett and back Frank Broyles. The others were Ben Bosworth, Steve Banaszak, and Don Leflenowski.

"But you never know," said Pickering. "Boys move away and become ineligible and that sort of thing. In a school this size, if you lose four or five key players you're in trouble."

second down and six yards to go, with the ball at the Belleville 13, Turner gained three yards to the 10. There, however, the Maroons' defense stiffened and the visitors took over on downs. The half ended with Belleville leading 7-3.

Backfield Potential
"We should be strongest in the backfield with players like (Paul) Lusk, (Dale) Turner, (Alton) Rendell, the three quarterbacks (Tom Williams, Steve Geroff, Steve Shipoff), (Ron) Bart, (John) Bruke, (Greg) Wasplak and (Larry) Nelson."

Lusk, a junior, again paced the Madison offense. He scored the Trojans' fourth-quarter touchdown on a six-yard run after the Panthers had taken a

20-0 lead.

Pickering had particular praise for the play of tackle Jack Miller. "He was by far the best player on the field," he said. "He made tackle after tackle and did most of the blocking on our power plays off tackle."

Along with Lusk and Miller the coach had kind words for the performances of Tom Miller, Mary Ovca, Steve Purkiple, Turner, Rendell, Clinton and Ed Ingram.

Best Defensive Effort
Most of those were cited for their defensive work with Pickering calling the effort the best three times in crucial situations of the year. The Trojans held a Jerseyville drive at the 20 in the first quarter and the period ended scoreless.

The Panthers took a 7-0 lead in the second period when Randy Shevart dashed over from the seven-yard line and the extra point kick was good. In the third quarter, they upped their lead to 14-0 when Craig Whitlock plunged over from the one after a 29-yard pass interception return.

In the fourth period, Emmet Shafer scored on a 50-yard drive to reverse off the Jerseyville single-wing formation.

"The Trojans' only victory this season was 21-0 over DuPont. There is hope that one of the best sophomore squads in several seasons will yield additional potential to next year's team."

Maroons Can Win Title Turkey Day
Belleville's Maroons, who clinched at least a share of the Southwestern Conference title by defeating Granite City, can win their fourth consecutive championship by topping East St. Louis on Thanksgiving morning (Nov. 26) at the ETIS field.

The Maroons have a 5-0 conference mark to the Flyers' 4-1 record. The Warriors' used with Collinsville's Kahoks for third place with 4-2 records.

In the past, Belleville has won or shared 10 championships. A Thanksgiving victory would mean the Maroons' fourth undefeated season, the others coming in 1929, 1938 and 1962.

Schedule Mix-Up Postpones Opener

It was an odd old story Friday as Venice grade school's basketball opener was postponed due to a scheduling mix-up.

"They came here and we went there," said Venice principal Roger Davis. "So we're going to play the Nov. 30 game at the place instead of here and reschedule the Friday game later."

Davis, incidentally, will be sitting on the sidelines for the first time in 19 seasons at the school. He said he has turned over the coaching reins to new teacher Robert "Puzzo" McKinney. Davis had a sensational 19-season mark at Venice—something like 282 and 63," he said. Before coming to Venice, Davis coached 14 years at Murphysboro grade school.

Two Christmas Parties Planned by K. of C.'s

Tri-City Knights of Columbus Council 1008 announced plans for its annual children's Christmas party to be held at 7 p.m. Dec. 20.

At a council meeting Thursday night, Jack Trittschke, this year's chairman for the event, reported that arrangements are being made for some special features for the children.

Another Christmas party is to be held Dec. 12 for members and their wives, featuring a dinner and a dance, with dancing from 8:30 to 12:30 p.m. Reservations will be required.

Members also were urged to promote the "Keep Christ in Christmas" campaign.

William Boerckel, council chancellor, presented the council with framed copies of the letter entitled "Special Delivery from Heaven to the Kennedy Family" from John F. Kennedy. He read the letter, composed by a 13-year-old girl named Barbara Jones, and requested that it be hung in the council chambers.

Donald Stanton, blood bank chairman, discussed blood bank policies with the members.

Corporate Communion Plans were announced for corporate communion at the

a.m. Mass Nov. 29 at St. Joseph's Church, with a light breakfast to follow at the K. of C. hall.

The council made its annual \$10 contribution to the Granite City High School Band Parents Association. It was announced that the band will present a series of concerts on Dec. 10, Jan. 28, Feb. 23 and March 23.

Rev. Michael Skordinsky, pastor of St. Mary's Greek Catholic Church and a council chaplain, presented Veterans Day memorial remarks and noted that November is a month remembrance of the deceased and of Thanksgiving as it also includes the feast of All Saints and All Souls and Thanksgiving Day.

Touching on the current international dangers from world communism, he urged members to pray for world peace and for the conversion of Russia to Christianity.

A report on the observance of the 50th anniversary of the fourth degree assembly of the council held the previous Sunday was made by M. E. Bartosik.

The meeting was conducted by Al Sanders, grand knight. Refreshments were served after the meeting.

Special Certificate Given Col. Schweizer

Col. Charles B. Schweizer, commanding officer, Granite City Army Depot, received a certificate of achievement in recognition of his services during his previous assignment at Headquarters, U. S. Army Communications Zone in Orleans, France, during the period July 1961 to August 1964. The certificate signed by Maj. General Webster Anderson, Commanding General, USACOMZEU, was forwarded to Granite City Army Depot after Colonel Schweizer and his family departed Europe.

During his tour of duty with the U. S. Army Communications Zone in Orleans, France, Col. Schweizer served as Chief Engineer Division of this command

which provides logistical support to U. S. Army units throughout Europe, and as Deputy Chief of Staff. Col. Schweizer assumed his present duties as commanding officer of the depot last August.

Reluctant Bride

(Continued from page 1.)

steps that could lead to the start of sewer installation next spring or summer—June (the month of weddings), perhaps, unless an election delays the timetable.

Neither set of municipal officials has offered to provide sewer connections or treatment service for outlying areas. However, both would have to do so in areas within their limits. And Madison now seems embarked on eastward expansion.

The town board's handicap is financial. It has a \$400,000 debt. Because it is now awkward to build sewers leading to scattered, widely separated treatment locations, more costly to construct multiple plants and more expensive to treat.

The going rate for municipal service is \$40 to \$60 for tap and about \$340 a month (\$250 for sanitary sewers and \$90 to slightly over \$1 for sewage treatment).

Since the cities have not taken action to invite unincorporated areas to join their sewer systems, the annexation laws in the picture as a potential barrier to the cities.

East Madison-Cloverleaf residents would remain in Nameoki township, even as part of the city of Madison. Annexation of fringe areas to the city of Granite City would involve transfer to Granite City township. City tax rates represent only a fraction of total property tax bills.

Will a "wedding" of some type take place at all? As mentioned, there is some degree of reluctance among Nameoki township residents to encounter expenses through sewer service charges, tax rate changes or assessment revisions.

One of the reluctant elements, the Pontoon Beach village, has been reluctant to take a stand—favorable or unfavorable—until its members are briefed on details of the proposed township sewer program.

If the village trustees vote to delegate sewer responsibility to the town board, the whole question may be partially answered within a relatively short period of time.

Once a revenue bond ordinance is adopted, township residents would have 20 days in which to either let the program go into effect or obtain sufficient petition signatures to call a referendum.

In the latter event, the degree of reluctance of willingness to have a township sewer program would be determined with precision—by "Yes" and "No" ballot markings.

An affirmative election vote would decide the matter. Rejection by voters would leave no change in the present situation. Whether citizens subsequently sought sewer services from local cities would be up to them.

More About Elections

(Continued from Page 1.)

a mayor, city clerk, city treasurer and one alderman in each of four wards, in addition to a supervisor, one assistant supervisor, a town assessor, town collector, town clerk and three members of the board of auditors in the earlier township election.

Most of the incumbent officials in Venice appear certain to seek re-election. Heading the list is Dr. John E. Lee, mayor of Venice. Whether or not William "Mike" Ebersold, incumbent city clerk, will seek re-election in view of his recent election as a member of the five-man board of East Side Levee and Drainage district trustees is a point expected to be decided soon. Officials say that Ebersold can hold both elective positions if he so desires. His candidacy for re-election undoubtedly will depend a great deal upon the opinion of factional leaders concerning the effect of a dual elective position upon the voters.

Other terms which expire next year in Venice are those of Treasurer Bernard Anderson, and Aldermen Harry Bunte, First Ward; Hank Svezia, Second Ward; Louis Ratliff, Third Ward, and William Griggs, Fourth Ward.

In the Venice township race, terms expiring next year, open to election include those of Joseph Bergard, assessor; John Moore, supervisor, and Jay Maurer, assistant supervisor. Frank Bellerbeger, collector, and Thomas W. Foley, town clerk, Venice voters also will elect two commissioners of the park district.

Madison Also Elects
The city of Madison will elect similar officials in a city election held simultaneously with that in Venice. Since Madison is located within Venice township, Madison voters will ballot on the same township candidates as do Venice voters.

Like Venice, the city opens to election in Madison will include those of mayor, now held by Stephen Maeras; city clerk, now held by Percy Lux; and treasurer, now held by Demos Nicholas. Five aldermen, one for each of the city's five wards, also will be elected. Terms expiring next spring include those of John Brudick, First Ward; Benjamin Boxworth, Second Ward; Ray Kozielec, Third Ward; Chris Costoff, Fourth Ward, and Boulder T. Walton, Fifth Ward.

The Quad-City area will have an additional village election in 1965 due to the establishment of the village of Pontoon Beach which is administered by a board of trustees. Two of the trustees will be required to seek re-election to stay on the board. The village drew short terms when the village was organized. These include trustees Chester Dean, Harold McBride and Otto Kreher.

In Nameoki township, voters will elect an assessor, town clerk, collector and three members of the board of auditors, while in Chouteau township, supervisor, assessor, clerk and collector also will be chosen.

Terms expiring next spring in Nameoki township include Joseph J. Cohan, assessor; John Karleschek Jr., town clerk; Gene C. Rottler, collector, and Harold E. Polley, William Schreiber and Robert Strackeljan, auditors.

\$50,000 Suit Filed Against City, ITR

A \$50,000 damage suit has been filed for Lenita E. Carlisle against the city of Granite City and the Illinois Terminal Railroad in Madison county circuit court in Edwardsville.

The complaint states that last July 4 she was a passenger on a motorcycle which slipped on abandoned streetcar tracks at 1423 Main avenue, causing her to hit the pavement and suffer permanent injuries. The complaint charges negligence on the part of the city and the railroad for illegally permitting a dangerous and unsafe condition to exist along Madison avenue.

Rock Breaks Bus Window

A rock was hurled through a window of a bus taking Belleville Township high school cheerleaders home after Friday night's football game here. It was reported to police by the driver, Adolph Haas. Chief of Police Adolph White has a one-pound box of candy at police headquarters which the owner may have by calling there and proving ownership. The box of candy was found by J. G. Richards of Richards Hardware Co. on 19th street yesterday morning when he opened the store.

Richards also found a pane of glass in the frame of a door moved as though someone had attempted to enter the store through the window. The pane was found missing in the store but the police are puzzled to solve the mystery of the box of candy, for surely burglars would not rob a store without carrying sweets with them.

In accordance with government regulations, providing one each year for a voter, the number of letters, papers and pieces of parcel post carried by each mail carrier will be limited. Postmaster William Chapman has just completed a report showing work done by local carriers during the week starting Oct. 19 and ending Oct. 24.

During that time, the number of parcels carried by each carrier averaged 75 pounds of first, second and third-class mail and 34 pounds of parcel post packages daily. Total average daily weight of all classes of mail was 109 pounds. As compared to the entire year, this was a very light week, and the average if taken throughout the entire year would be much heavier.

Average number of pieces of mail distributed was 140 per second and third-class, and 26 pieces of parcel post.

Time For Local Public To Rally

Behind County Zoning Program

Whether or not Madison county zoning is put to another vote tomorrow, late this year or never, it is appropriate for county residents to make it unmistakably clear to their elected officials that zoning benefits are recognized, needed and desired by a vast majority of citizens.

It is unfortunate that so much unsubstantiated anti-zoning propaganda is being generated by a small and unrepresentative group of dissidents, many of whom have vested interests in successfully sought to circumvent fair zoning policies for their personal advantage.

But it would be a mistake to be overconfident. The original vote establishing zoning in February, 1963 was close, and the margin was pared when the issue was brought up again several months later. A group actually working against taxpayers' interests in this matter is attempting to convince officials that it represents "Madison county taxpayers." And an "again" faction opposed to virtually all forms of progress has sought to frighten supervisors with threats of election opposition.

The fact is that one who witnessed some of the zoning hearings would minimize the power of the "big lie" technique which has been used to distort zoning facts. Yet, the mid-1960s are hardly the time to retreat into dark ages of superstition, burning area; reason must prevail, and reasonable people need to bestir themselves to make sure that it does.

Other facts are that zoning protects property values—most families cannot afford to lose their large homes. Zoning also protects the "harmful" by zoning against those were proposing land use detrimental to their neighbors.

The Press-Record strongly urges all Quad-City residents to vote on the County Board of Supervisors. Local board members are:

Granite City—Nelson Hagenauer, Milton Allen, Homer Fendleton, Robert Gaughan, William Webb, and Carl Roach. Venice township—Arthur Moore, Claude Echols and Jay Maurer.

Nameoki township—Harry Briggs and Charles Wagner. Chouteau township—Joseph Troeckler.

Don't look now, but there are only 32 shopping days until Christmas.

PRECAUTIONS FOR DIABETICS LISTED

More than 300 persons were present for the officers' party given by the Granite City Elks at the Masonic Temple.

Eight Shriners from nearby cities were the featured guests at the special event given by Mrs. Fannie Carter of Calvary Shrine of East St. Louis.

Failure to utilize this sugar level setting off a chain reaction of chemical mishaps in the blood and urine that results in the classic symptoms of diabetes—excessive thirst, increased urination, hunger, weakness, weight loss and drowsiness of skin.

Must Control Diabetes Failure to control these symptoms with adequate injections of insulin and proper diet can result in diabetic coma, and even death.

Vascular Disease—Hardening of the arteries appears in most diabetics who have the disease for 15 years or more. Resulting decreased blood supply to the feet can cause cold feet, numbness, local infection, ulceration and gangrene.

Diabetic Neuropathy—Early symptoms of this complication are tingling and numbness of the hands and feet, followed by constant, aching pain which usually is worse at night.

Infection of the skin—This complication is frequent; many doctors treating patients with recurrent boils and carbuncles test them to see if they are diabetic.

Tuberculosis—This disease is twice as common in diabetics as in non-diabetics.

Levee Treatment Plant Bonds Should Be Sold Competitively

For the same reasons that Granite City officials have recommended proposed sale of sewage treatment plant revenue bonds, the East Side Levee and Sanitary District owes it to taxpayers to sell its treatment plant bonds competitively.

It will be recalled that substantial savings were obtained in Granite City. But perhaps even more important is the principle. When large amounts of the people's money are involved—or small sums, for that matter—there is a duty to follow procedures that meet two objectives: treating all prospective bidders fairly and taking all reasonable steps to get the best possible terms for the public.

The current levee district bond issue is of particular interest to Quad-City because the treatment system is designed to serve the cities of Madison and Venice. Residents of these two cities will be making payments to retire the revenue bonds over a long period of years.

Especially now that there are two local men on the levee board, Quad-Cityans have high hopes that the district will turn away from discredited policies of the past and give real meaning to candidates' pledges of economy and efficiency. They must not be disappointed.

Prompt City Action On 21st Street Can Help Curb More Local Jobs

The Nestle Co., a highly-respected, diversified and growing industry furnishing employment to local people, has been asked to move its Granite City plant. In the interest of Granite City—and to encourage creation of additional jobs—the council should take prompt action on Nestle's request to relocate its plant.

A fair value is determined by a professional appraiser. Double advantage to the city is that it and other taxing bodies would receive additional income from the enlarged plant property, and the city would no longer have to spend money maintaining a dead-end street that goes nowhere and can never serve as anything but a route to the industrial coffee plant.

By vacating the street, the council also would eliminate the danger of persons attempting to cross nearby railroad tracks at a point where there is no crossing and no protection.

Second-Guessing And Second Effort

"Second effort" has become a much-used phrase during the current football season, describing the never-give-up attitude that leads to a tackle or touchdown after initial efforts fail. It also applies to other sports—the corporate baseball Cardinals, for example—and, we suspect, to many aspects of daily life.

If more people would utilize second effort—resisting the tendency to give up after one failure or other people or God when the going becomes tough—it could be a far different world.

Expansion Could Start Pure Air Of Progress Toward Pure Air

Dual benefits are expected to be derived from the \$140 million industrial expansion announced last week. Granite City's growth will be a halt to rust-colored smoke from oxygen-aided open hearth furnaces. Basic oxygen furnaces of the type planned are designed to control such smoke.

This is a good beginning toward eliminating all smoke and fumes in the Quad-Cities. It would be fine to see a chain reaction develop, reaching numerous other sources of air pollution.

LINKS ZONING LAW TO CREATION OF DUMPS

The economic growth of Madison county is being retarded, yes, being strangled, by its county zoning ordinance and its administrative activities in the junkyard.

Proof of this is, the offensive burning dumps of garbage and refuse on and near our prime residential sites, and the granting of permits to create new ones. This will keep out new industry and new job opportunities.

It does not offer the desired climate and conditions to attract the investment of the millions of dollars that are necessary for our economic growth. Industry and business will not locate in near or among burning dumps of garbage and refuse.

Madison county zoning ordinance is so difficult to change as to make it almost impossible to get rid of what good it is. I hear it is far more simple to abolish it than change it.

Improving zoning is far more than no zoning at all. Most of the business and industry we need to get rid of is junkyard. Zoning has made it legal to create new dumps, for St. Louis garbage and refuse in Madison county.

OFFICIALS SHOULD HELP RAISE MORAL STANDARDS

Referring to the student's letter Nov. 9 on the vote results, leaders of the country should not be so much talking, they should do what is better to be a moral person.

This young man is more intelligent than some of them. They have a better idea of what is right. If they do not start doing things right, no bill they pass will be of any value. The last time it was the lights it was the most troublesome and worrisome good reputation.

Forever Lost

It's much better to be a moral person than it is to squander money and reputation.

THE PASTOR SPEAKS

REV. GEORGE H. D. READER First Church of the Nazarene

Most people believe that every Christian should keep the Ten Commandments, but some seem to forget that there are other commandments in the Scriptures which should be kept also. Among these is one found in Hebrews 10:25, "Let us not forsake the assembling of ourselves together as the manner of some is."

It seems that from the days of the Apostle Paul, some have thought they could be Christians and at the same time neglect or forsake the assembling of themselves together as the manner of some is.

The Apostle very definitely commanded, "Forsake not the assembling of ourselves together."

Spiritual Warfare The commandment was given for our spiritual warfare. We all need the soul help that is to be received in the service of God. We need the teaching and preaching of God's word.

We are made partakers of divine nature through the word of God. In the church services there is spiritual fellowship both with fellow Christians and with God that brings blessing which cannot otherwise be received. To neglect or to forsake this is to invite spiritual decline and death.

High Motivation The urging of the church for you to attend the services regularly is motivated by something far more than reporting a good attendance; there is a definite interest and concern for your spiritual welfare and the eternal interests of your soul.

If you have been careless about attending but are now desiring to attend, let us encourage you to do so. The church is a place of God's forgiveness and at-forgiveness regularly.

obedience does not bring blessing to your heart and life.

Criminals Use Dummy Licensees

Fourth of a group of bills proposed by the Chicago Crime Commission to knock out organized crime in Illinois.

Traffic in alcoholic liquor has long been recognized in the U.S. as a major source of revenue for the state's police power.

In Illinois, this power has been exercised by the combination of state and local authorities under the Illinois Liquor Control Act.

Despite the established regulatory tradition in Illinois, local police officials have observed that organized crime elements—camouflaged by dummy licensees—have become involved in the ownership and operation of businesses in the liquor industry, particularly retail liquor establishments.

Hard To Learn Real Owners While the adverse effect on the public interest of the wine intrusions in a regulated industry would seem self-evident, law enforcement officials have been increasing difficulty in ascertaining the beneficial ownership of liquor establishments.

Present regulatory laws require liquor licensees to maintain records and records, and lack of uniformity of the books and records, the inadequacy of the information required to be furnished to the commission, and access to the books and records to the actual owners of liquor establishments.

Law enforcement officials need additional tools to assist in the identification of criminal elements and activities in the liquor industry.

Uniform Account Systems To make this more effective, a fairly penalizing fully-operated business enterprises, it is proposed that the Illinois Liquor Control Act be amended so as to direct the Illinois Liquor Control Commission to establish uniform systems of accounts to be kept by liquor licensees.

Under the proposed legislation, the Liquor Control Commission would classify licensees and prepare a list of licensees.

Failure of a licensee to comply with the requirements of the amendatory legislation with respect to record-keeping would subject the licensee to the criminal and administrative sanctions already in the Liquor Control Act, including fines, imprisonment and revocation or suspension of a license.

Tax Savings for Persons Over 65 Outlined by IRS

Taxpayers 65 years of age and over will find additional tax savings in several provisions of the 1964 Revenue Act. Jay G. T. Phillips, director of the Internal Revenue Service, said these benefits are in addition to tax reductions that will reduce the tax bills of all taxpayers.

For the elderly, tax savings from the new law are estimated to be over \$600 million a year. Of benefit particularly to taxpayers 65 years of age or older are these provisions in the 1964 tax law:

1—The minimum standard deduction

2—removal of the one percent floor on medicine and drug expenses

3—tax-free treatment in certain cases for gains from the sale of real estate

4—an election increasing the computation base on retirement income credit for certain taxpayers.

Phillips said that none of the 11 million elderly taxpayers would be exempt from filing a return under the new law. Nearly all of the 3.5 million who file returns will pay no tax to pay, according to Phillips.

The provisions of the new law will reduce the taxes of virtually all of the 3.4 million people 65 and older who pay federal income taxes. Social Security benefits, however, are not taxable income under the new law, Phillips said.

Mitchell Water Dist. To Do Own Billing

The Mitchell Water district will initiate its own program of billing and collecting monthly water fees on Wednesday, Nov. 18. It was announced today by John Wood, manager.

The billing and collections, which will be in charge of Mrs. Connie Crumley, secretary, will be handled out of the office of the new water district building at 745 East Chain of Rocks road. The building was completed and occupied by the district several months ago.

Previously billing and collection were handled by the American National bank. The water district offices will be open from 9 a.m. until noon and from 1 p.m. until 4 p.m. daily, Monday through Friday, and closed Saturdays.

The water district, which began operation in May 1962, formerly occupied offices at 909 East Chain of Rocks road.

YMCA Art Class Sees Art Museum Exhibits

Members of the YMCA Wednesday Art Class and other adults made a trip to the St. Louis Art Museum on Thursday. The group viewed exhibits currently on display, including art work from China and Japan and heard a lecture on Greek art.

A bus is chartered for these trips, which are a scheduled part of the YMCA adult activities. The next trip will be to Cass Light Square the first week in December. The galleries and also the antique shop will be included in the tour. Interested persons may call Mrs. Bonnie Fuller or Mrs. Lee Pfaff at the YMCA for reservations or for more information.

Sewer Extension Ban Will End As Plant is Started

Extension to the Granite City sewer system no longer is being halted by the Illinois Sanitary Water Board, since it views provision of city sewage treatment facilities as "assured"—the stipulation in a no-extension order issued against Granite City several years ago.

This was learned today from Douglas Morton, ISWB official, who said the prohibition will be lifted automatically with the start of treatment plant construction.

GC Council Has Several Debatable Issues Tonight

Granite City Council members will have a full agenda for tonight's 8 o'clock session with a number of hot-iron items from earlier meetings.

Still pending is a decision on use of lower-cost alternate equipment for the sewage treatment plant, as well as the appointment of David Johnston as public utility engineer with a salary of \$8500-a-year.

Use of sales tax to reimburse deteriorating concrete streets was deferred two weeks ago, and the council also is to hear a committee report on the sale of a block of 21st street west of Adams street to Nestle Co. for \$2000.

The street committee is to present a recommendation on valuation set by appraisers.

The council also must submit two meetings with state officials on the widening and resurfacing of Nameksee road.

A report is expected tonight on a cost estimate for an air pollution study to be conducted by the city to determine the source of pollutants that caused stains to house paint in August and September.

The Finance committee is to report on liability insurance for the city and also may call for

consideration of sick leave policies for city employees.

Notice has been received of the death of a \$25,000 damage suit by Mrs. Hilda Hartman for injuries suffered in a fall over a tree stump in front of 2232 Delmar avenue on June 8, 1963.

A petition for amendment of the city zoning code has been received from Dr. and Mrs. John Vassiloff, 2006 Cleveland blvd. They are seeking a C-1 commercial designation for property now zoned R-2 residential.

Brun Farm is Testing Ground for Horseradish

Samples of 33 varieties of horseradish were harvested in the variety test plot grown by William and Homer Boone in Nameksee township in cooperation with the University of Illinois.

They were exhibited and graded by growers at a meeting at the Brun farm last week.

Some of the new strains identified as yet only by numbers, look promising and may develop into some good varieties for commercial production, the county Farm Bureau reports.

Most of them produced well despite the adverse dry weather, although some grew many small hairy roots, adding to the work in harvesting and trimming.

Infant Hurt in Auto

A small boy, Jeffrey Patrick, 18 months old, was given emergency treatment Friday at St. Elizabeth Hospital for injuries suffered when he fell against the dashboard when his father, Richard Patrick, 4016 Lake drive, was forced to stop his car suddenly. The infant required six stitches to close cuts to his forehead and lower lip.

Probation Officer Talks At Chicago Convention

James J. Reidelberger of Venice, chief probation officer of the third judicial circuit of Illinois and president of the Illinois Probation and Parole Association, was scheduled to deliver an address today at a functional meeting of the 69th annual conference of the Illinois Welfare Association in Chicago.

The topic is "Standardization of Probation Procedures for Illinois' 21 Circuits." The convention opened Sunday and is to close Tuesday.

The state recently appropriated funds for a joint effort of the Illinois Youth Commission and the Illinois Probation and Parole Association to write a comprehensive "Probation Officers Manual—Standards and Procedures." Reidelberger is chairman of the venture and has plans for completion of the book within the next 18 months.

Reidelberger said he and his committee hope it will be a valuable contribution to the literature already published in the field. He feels that the policies and procedures as outlined in the book will go a long way toward establishing a unified probation system throughout the state.

The theme of the IWA conference is "Risk for Living—Riches, Requirements, Responsibilities." From 1940 to 1950 professionals from the social welfare field are attending the convention.
